# STREET PHOTOGRAPHY

Street photography is characterized by having a candid element.

Street photography involves  
capturing  
candid moments of real life.

Street photography has  
authenticity and  
isn't staged.

*It's about people*

It might emphasize a person

or

incorporate people in the overall  
street scene

or

show only the trace of a person  
having been there

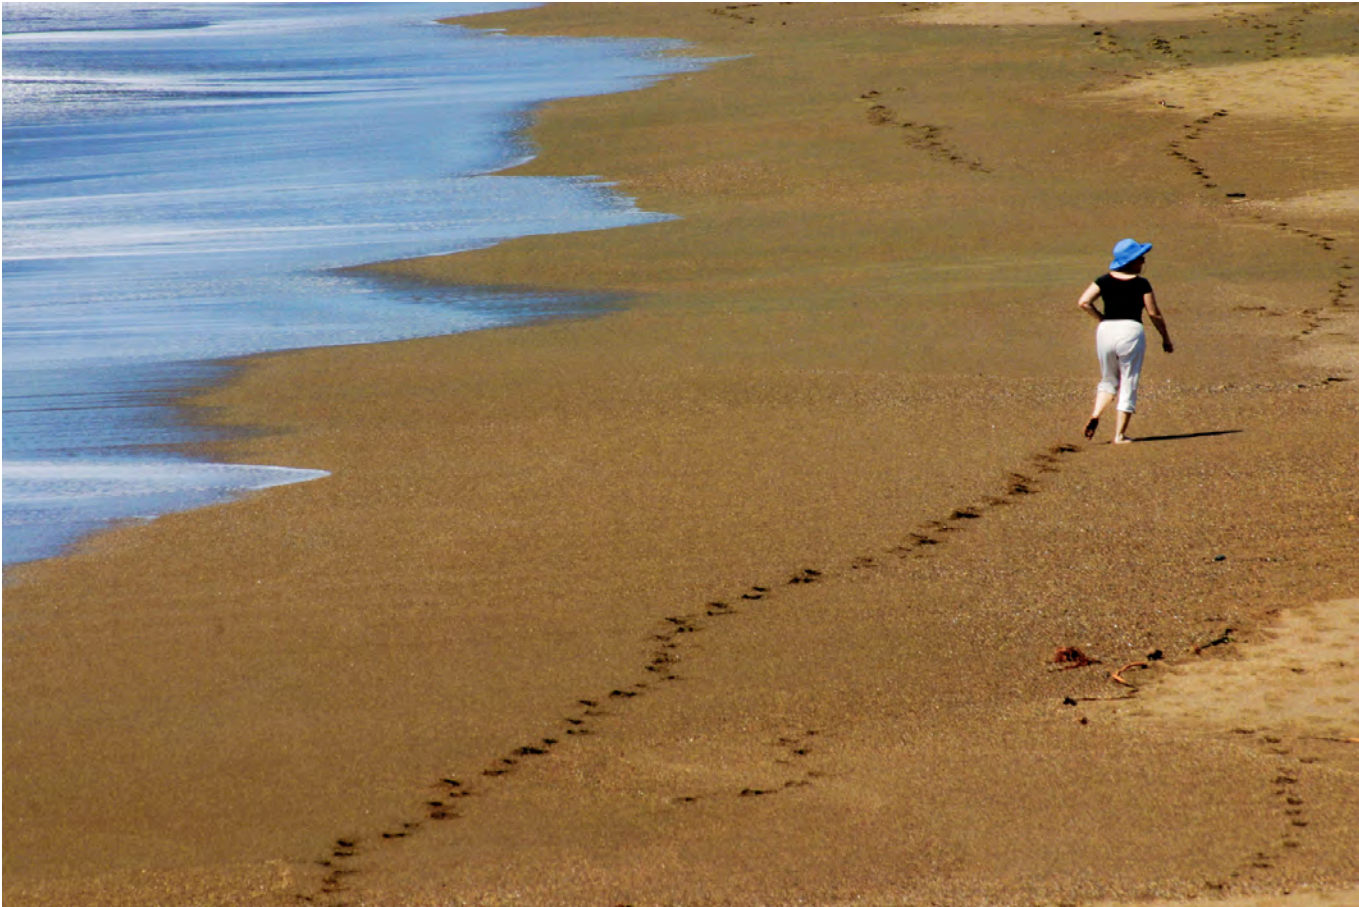

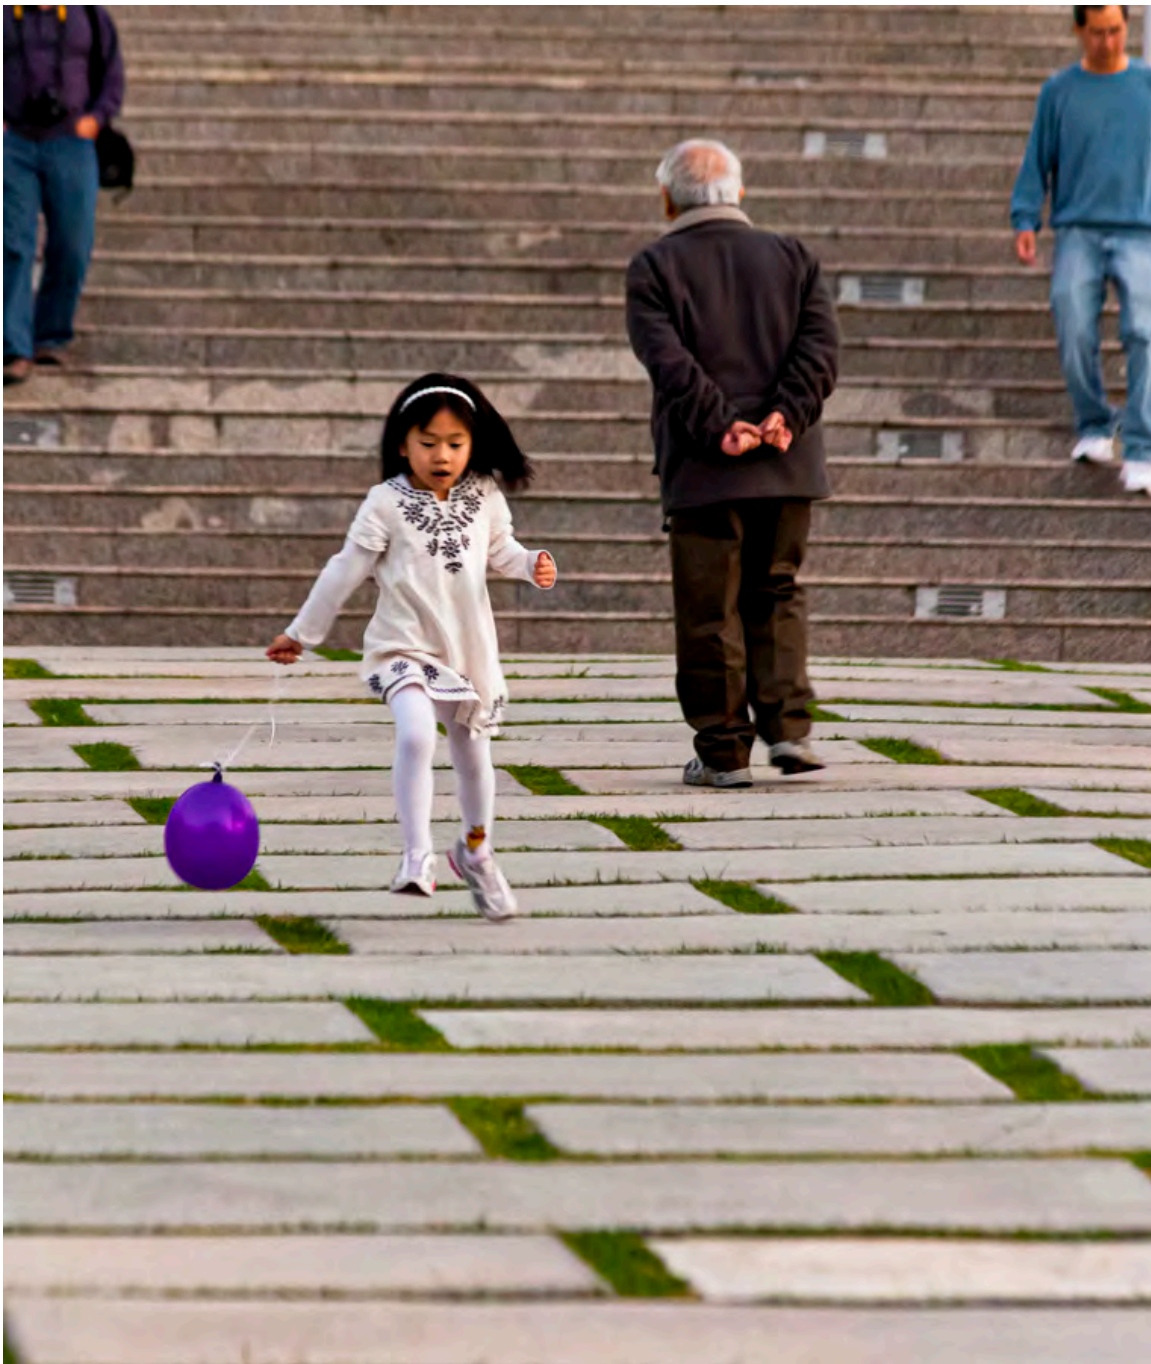

Trace of a person.  
Not staged. Found

Emphasis on the environment

Murals are other people's art! Make it your own and give it context!

Juxtaposition. Background.

# TIPS

Opportunities: Crowds, events, tourist spots, quiet open spaces

*Very minimal photoshop.* Limited to overall corrections.

No deleting or adding elements.

Shoot with an intention.

Not staged or set up.

Simplify.

END 😊
